PROFILE

As a passionate full-stack web developer, I am currently pursuing a degree in Software Engineering at Bahir Dar University. My enthusiasm lies in crafting dynamic, user-centric web applications, seamlessly blending front-end and back-end technologies. I am always eager to explore new tools and techniques, and I am excited to apply my skills to innovative projects.

WORK EXPERIENCE

Exam-Prep web application   2024 - PRESENT
working as a team leader

- Design and contribute in the development of a web application called Exam-Prep that targets high school students to help them in exam preparation.
- Lead, mentor, and manage the whole development stage in the team and harmonize the team work.

Online-Banking web application   2024 - 2024
Built a fully functionalized web-app lonely

- Developed an online banking web application that gives all the functionality given by banks.
- Used HTML, CSS and JavaScript to built the application which is very user friendly, easy to registered and use.

Y-Tour tour guide web application   2023 - 2024
